#### A WORD TO STATE OFFICERS

There are two ways of mismanag ing the finances of the State. Une by reckless expenditures, another by short sighted economies. Ne vada is suffering just now from the short sighted economies of the State officers. When anything is wanted in the Capitol building, the State officers hold meetings and deliberate and plan how they can save a few dollars to the State.

The result is that hundreds of things which can be bought here, are purchased in San Francisco. and the home merchants allowed to make no commission. The cost of maintaining the State Government comes out of the pockets of the resident taxpayers of Nevada and it is very galling to the home merchants to be called on every year for taxes while he sees the San Francisco merchant, who pays no taxes, reap the profits of the Ne vada business.

Recently there has been hose, carpets, and material for the Land Office safe purchased for the Capitol. Governor Stevenson we understand, purchased the hose in San Francisco, Hallock secured the carpets in San Francisco and Jones sent to San Francisco to purchase so small a thing as the locks for

This is a principle which is not a good business principle and the State officers ought to see it if they have any business sense. The sal ary of these State officers comes out of the pocket of the Nevada, not the San Francisco taxpayers, but in the manner in which the business of this State is managed, the Nevada merchant seldom has the right to even bid for the furnishing of these supplies. The APPEAL proposes to agitate this question until it becomes a serious

this State at heart, to assist in creating a public feeling on this subject until no political convention will think of placing a man in nomination who is not sound on this question. The APPEAL stands on the home protection, home purchase home industry platform. broad and solid, as it is a question which underlies the future prosperity of this State, and hopes to see the time come when candidates for State offices will be called quon to give a strict account of their records as home protectionists and that these records will be strictly scrubinized as their party records.

The example they set is imstated by thousands and until Nevada be gins to keep its money at home, it can never even begin to retrieve its waning fortunes.

#### CHARITY.

Controller Dunn, of California; has drawn his warrants for the use of the asylums for the past six months, being a total of \$125,857.66 of which \$3,038.87 to the Hebrew Protestant Asylums, and \$86,559.72 goes to the Roman Catholic Asylums; being nearly 29 times as much as the Hebrews receive, and nearly three times as much as all the Protestant Institutions receive.

The Catholies seems rather to be getting the bulge on the balance of the beneficiaries.

\* - A schoolmaster in San Francisco named Edwards, stripped a lot of little girls in a schoolroom, in the presence of the boys, in order to find out who stole a pinchbeck breastpin. The children of the wealthier families were not stripped and the pin was finally discovered on the floor near the teacher's chair. Such a whelp deserves tar and feathers.

-Charles A. Dana, of the New York Sun, is said to have predicted to a Mail and Express reporter, that President Cleveland will not have the support of the delegation of his State in the next National Democratic Convention. "I do not belidve," says Mr. Dans, "he will have Pipes will have even a minority of that delegation."

-The Storey county militia have concluded to disband rather than muster in under the new law.

-The Directors of the Nevada. Idaho & Montana railroad will probably locate their office at Winnemucca. The road will surely be built and the annexation of Idaho to Nevada accomplished at the next session of Congress.
